

## Финальный проект

### → CreateToken

POST /auth [errored]

Invalid URI "http:///auth"

2. JSONError in test-script

### → CreateBooking

POST /booking [errored]

Invalid URI "http:///booking"

4. JSONError in test-script

### → GetBooking

GET /booking [errored]

Invalid URI "http:///booking"

6. Response status code is 200

7. Response time is less than 200ms

8. Response has the required fields - bookingid

### → GetBookingIds

GET /booking [errored]

Invalid URI "http:///booking"

10. Response status code is 200

11. Response time is less than 200ms

12. Response has the required fields - bookingid

13. Validate response content type is application/json

### → UpdateBooking

PUT /booking/ [errored]

Invalid URI "http:///booking/"

15. Status code is 200

16. Response time is less than 200ms

17. Status code is 200

18. Response has the required fields

19. Checkin and checkout dates are in a valid date format

20. Depositpaid is a boolean value

### → PartialUpdateBooking

PATCH /booking/ [errored]

Invalid URI "http:///booking/"

22. Status code is 200

23. Response status code is 200

24. Response time is within an acceptable range

### → DeleteBooking

DELETE {{Url-url}}/3027 [errored]

getaddrinfo ENOTFOUND {{url-url}}
